

Category:	All Silver Blades Skating Club Members
Title:	Home Organization/Returning Skater Policy
Approved by:	Silver Blades Executive
Effective Date:	August 7, 2017

PURPOSE:

To define what constitutes a returning skater of the home organization "Silver Blades Skating Club".

POLICY:

From Skate Canada website: "The home organization of a registrant is the Skate Canada club or skating school through which he/she registers with Skate Canada. A registrant may participate in programming at more than one club or skating school, but can only have one home organization per registration year. The first organization to enroll a registrant will be considered by Skate Canada as their home organization. A registrant may change his/her home organization after having enrolled with a club or skating school for the current registration year, subject to the provisions of the Skate Canada Home Organization Policy."

A returning skater of Silver Blades Skating Club must have been registered as a Silver Blades Skating Club skater for the previous season. This means that Silver Blades Skating Club was the skater's home organization - the Skate Canada registration fee was paid to Silver Blades Skating Club at time of registration and Silver Blades Skating Club was the club the skater represented at competitions and seminars.

Returning skaters are given the opportunity to register prior to the start of the season on dates to be determined and offered by the club.

Returning skaters who miss these dates (and new skaters wishing to register with the club as their home organization) will be able to do so through the office during scheduled office hours.

PROCEDURE:

1. Skater attends registration on one of the dates available to register for the upcoming season.
2. Once registration is complete with all fees paid, including Skate Canada fee, the skater is considered registered with Silver Blades Skating Club as their home

organization and will be considered a returning skater for the next season's registration.
